

# Basic GPS Vehicle Tracker

## Operating Voltage

Comes with a wide operating voltage of input range from 9V to 36V

## 10 Days Data Backup

With 10 days data backup user can check all past reports and playback in ease

## Water Resistant Design

Device comes with a water resistance casing design to prevent water entering the device

## Reports

Many reports like distance traveled, ignition ON/OFF, Stoppage report, etc. are provided

## 20+ Software Features

With over 20+ software features provides a best GPS tracking platform

## Vehicle Stop / Start

With immobilization feature vehicle can be stopped and start remotely

## Mobile Application

Mobile application is available for user convenience

## Easy to Use Interface

Simple UI enables the user to have a user friendly interface

## Alerts

Supports app notifications like Overspeed, Device Unplug, etc.

## Geo-Fencing

Get instant alerts when vehicle enters or exits a specified boundary

## GSM Specification

GSM frequency	850/1900/900/1800 MHz
GPRS	Class12, TCP/ IP build in GSM Module
Aquisition Sensitivity	-148dBm
Output power	Class 4 (2W)@850/900MHz
GSM Indicator	Green LED
Network protocol	Embedded TCP/IP stack

## GPS Specification

GPS chipset	MTK high sensitivity chip
Channels	66
Sensitivity	-165dBm
Position accuracy	5m - 15m
Accuracy	10m CEP
Cold start	<38s (Open Sky)
Hot start	<2s(Open Sky)

## Other Details

Input Voltage	9V - 36V
Built in Battery	80mA
Digital input	Ignition detect
Digital output	Relay
GSM antenna	Internal
SIM	Normal SIM
Indicator	3 status LEDs, Blue: GPS, Red: Power, Green: GSM
Temperature	-25°C---+75°C
GPS antenna	Built-in Antenna

## Device Images

## Application

Sports Bike Tracking

Scooter Tracking

Auto rickshaw

Logistics Tracking

Personal Vehicles

Taxi
